

# ARC Calibration Program

Westbay Instrument's ARC (Accurate, Reliable, Cost-effective) Calibration Program reduces unscheduled downtime and unexpected major repairs on your equipment. Reduce delays to your monitoring program by accessing equipment from our Inventory pool.

## How it works

1. Sign up for a 3 or 5 year program and save on calibration costs.
2. Westbay notifies you when your equipment is due for calibration.
3. Package and ship your equipment to Westbay.
4. Request equipment from our inventory pool to eliminate downtime.
5. Westbay returns your equipment within 3 weeks of receipt.
